Abdus Salam

Frontend Developer

New Delhi, Delhi | abdussalam9891@gmail.com | 9006143335

github.com/abdussalam9891 | linkedin.com/in/abdus-salam123 | abdus-portfolio-website.vercel.app

Summary

Frontend Developer with experience building and deploying production-ready web applications using Next.js, React.js, JavaScript, and Tailwind CSS. Skilled in REST API integration, responsive UI development, and performance optimisation. Strong understanding of component-based architecture, SSR/CSR patterns, and browser rendering. Actively seeking a frontend developer role to contribute to real-world products.

Skills

Languages: JavaScript (ES6+), HTML5, CSS3

Frameworks and Libraries: React.js, Next.js, Tailwind CSS, shadcn/ui, Recharts

Tools and Platforms: Git, GitHub, Vercel, Supabase, Firecrawl, Resend, VS Code

Concepts: Responsive Design, REST API Integration, Server-Side Rendering, Client-Side Rendering, Web Performance, Accessibility, Component Architecture

Projects

DropWatch - E-commerce Price Tracking Application

Next.js | JavaScript | Tailwind CSS | Supabase | Firecrawl | Recharts | shadcn/ui | Resend | get-dropwatch.vercel.app

- Built a full-stack Next.js application that scrapes and tracks live product prices from Amazon, Zara, Walmart, and other e-commerce sites using Firecrawl API with anti-bot bypass and AI-powered data extraction
- Implemented Google OAuth authentication using Supabase with Row Level Security (RLS) to ensure each user accesses only their own data
- Automated daily price monitoring using Supabase pg_cron and a secured Next.js API route; integrated Resend to deliver email alerts when prices drop
- Developed interactive price history charts using Recharts and built a fully responsive UI with shadcn/ui components and Tailwind CSS

Personal Portfolio Website

Next.js | JavaScript | Tailwind CSS | shadcn/ui | abdus-portfolio-website.vercel.app

- Developed a responsive portfolio website using Next.js App Router with dark and light mode, persisting user preference via localStorage
- Debugged and resolved a Next.js SSR hydration mismatch caused by client-only state initialisation; implemented a mounted guard pattern as a fix
- Optimised image loading with Next.js Image component and deployed on Vercel with production-grade performance

Work Experience

Automation Technology Intern - Andritz Hydro | Jan 2025 - May 2025

- Supported PLC and SCADA system testing for industrial automation workflows in live production environments
- Assisted in control panel design, wiring validation, and real-time system troubleshooting alongside senior engineers
- Developed structured problem-solving and debugging skills through hands-on engineering project work

Education

Bachelor of Technology in Electronics and Communication Engineering

Deenbandhu Chhotu Ram University of Science and Technology, Haryana | 2021 - 2025
